

ARJUN S

SUMMARY

Full Stack Developer with 2.7 years of experience in building high-performance, responsive web applications. Skilled in frontend development (React.js, HTML5, CSS3, JavaScript, Bootstrap, Material UI) and backend technologies (Node.js, Express.js, MongoDB). Integrated RESTful APIs, implemented JWT-based authentication, and improved data retrieval efficiency by 15%. Experienced with Git version control, Agile methodology, and manual testing. Passionate about delivering seamless, user-centric experiences through optimized solutions.

EXPERIENCE

ASSOCIATE SOFTWARE ENGINEER 08/2022 to Current

Prodapt Solutions, Chennai

OORT (Optius Order Removal Tool).

- **Developed User-Centric Interfaces:** Designed responsive, visually appealing web UIs using **HTML, CSS, Bootstrap, and JavaScript**, enhancing UX by **25%**.
- **Optimized Responsive Design:** Utilized **CSS media queries, Flexbox, and Bootstrap grid** for seamless layouts across all devices.
- **Automated Order Management:** Built an **automated system**, reducing paperwork by **70%** using **HTML forms, JavaScript validation, and dynamic UI updates**.

AT&T:

- **Enhanced Frontend Components:** Developed **reusable UI components** with **JavaScript and Bootstrap**, improving efficiency and maintainability.
- **Implemented Responsive Design:** Ensured **cross-device accessibility** using **CSS and Bootstrap**, enhancing mobile compatibility.
- **Optimized Platform Efficiency:** Streamlined **platform development** from conception to deployment, boosting **operational efficiency**.

PROJECTS

Food Delivery Application:

- <https://food-del-frontend-4a2g.onrender.com/>
- <https://food-del-admin-m6q1.onrender.com/>
- Developed and deployed a full-stack food delivery app with secure payment integration using Stripe and JWT-based user authentication.
- Designed and implemented RESTful APIs with Node.js and Express for managing orders, user profiles, and restaurant menus.
- Built a NoSQL MongoDB database to store user data, orders, and restaurant information efficiently.

Landing Page:

- <https://webpage-bootstarp.netlify.app/>
- Developed Modern UI Components: Built responsive and reusable components for efficient code structure using React

User Administration App:

- <https://axioscrudapp.netlify.app/>
- Built Interactive UI Components: Used functional React and hooks (useState, useEffect)

to create dynamic and responsive user interfaces, Implemented CRUD Operations and Integrated Axios for HTTP Requests

Portfolio website:

- <https://arjun-portfolio0.netlify.app/>
- Developed a responsive React portfolio website showcasing skills, projects, and experience with interactive UI animations.
- Implemented ReactBits for timeline displays and scroll effects with EmailJS integration for direct communication.
- Optimized performance through efficient component structure and responsive design principles.

SKILLS
